Corporate Social Responsibility Initiatives

Cabral Gold has made major contributions to the community of Cuiú Cuiú in Para, Brazil creating a brighter future for all

Elementary School Renovation

- One elementary school exists in the village to educate children. It had a leaking roof, poor air flow, and weak electrical wiring. Cabral completely renovated the school (top left: post-renovation, cover page: pre-renovation).

Health Care Services

- Cuiú Cuiú had no medical staff present to treat malaria, illnesses, and provide vaccinations to residents. Cabral built a nursing station and sponsored doctors to make house visits to residents in need of treatment (bottom left).

Garbage Collection Service

- There was no organized garbage collection and trash was thrown sporadically in the village. Cabral initiated a routine garbage collection service, created a landfill, and cleaned the streets of litter (bottom right).

Local Community Events

- Festivals are important for passing on traditions to future generations and socializing in the community of Cuiú Cuiú. Cabral contributes to these events by supporting them and attending when possible (top right).

Corporate Social Responsibility Initiatives

COVID-19

- In the midst of the covid-19 pandemic, the Cuiú Cuiú community was strongly affected. Cabral maintains its full ongoing support, being responsible for providing the only existing Nursing Station to provide treatment and medicines.

Health Clinic

- Cabral, together with the leaders and businesses of the community, delivered the new complete Health Clinic, with capacity for up to 8 patients to serve the community.

Water Bore

- In 2019, Cabral Gold together with Energold and Pronorte, realized a long-term dream for Cuiú-Cuiú. Every year the community faced water rationing in the summer months. But with the success in drilling a potable water bore with a depth of 76.5m, this dream came true.

Police Station

- With the active participation of Cabral, the community now has an advanced police post, whose implementation has significantly improved the safety and harmony of the community.

COVID-19

Since the Pandemic began, the clinic maintained by Cabral has made more than 1000 medical consultations.

Health Clinic

This is a very important milestone for health treatments in the community, as readaptation to the "new normal" will be necessary due to COVID-19 infections and other diseases common to the regional climate.

Health Services– Nursing Station

Cabral Gold helped the community in the construction and fitting out of a nursing clinic. Prior to this there was no specific place for this. With the installation of the permanent station, Cabral also began to sponsor full-time nurse, who has served the community masterfully, preventing outbreaks of malaria, dengue to Covid19— which had been affecting the region strongly.

Health Care Services – Community Nurse

Cabral has sponsored a nurse to remain in the village of Cuiú Cuiú to educate and monitor patients who are suffering from illnesses, disease, and require treatment. Frequent Visits by the Local Health department of Itaituba area sponsored by Cabral. Previously no doctor was present in the village to help and assist the ~3,000 residents of the community. Throughout the year he holds lectures on best practices for maintaining a healthy lifestyle and how to prevent and fight diseases commonly found in central Brazil.

Elementary School Renovations – Before & During

The local school was overdue for a complete renovation as there was dim lighting, no air flow, peeling paint, and a leaky roof

Cabral Gold employed contractors renovate the school above installing fans, new lighting, and fresh paint inside

Elementary School Renovations – New Roof

The old roof (left) was rusted and contained holes which caused water to run down the walls of the school during the rainy season. New wiring was also required (bottom left). The roof required a new frame and panels.

A new roof frame was constructed (right) and new metal roof panels were bolted down to waterproof the school and prevent any future leaking. This was all sponsored by Cabral Gold.

Elementary School Renovations - After

Completely renovated local school with a new roof, fans, bright lighting, fresh paint, and smiles all around sponsored by Cabral

Garbage Collection Service - Before

Cabral Gold provided coordinated & logistical support for the local community of Cuiú Cuiú to clean up the surrounding areas

Result: Cabral excavators were used to gather the garbage and restore the area. This has improved the general safety of community residents and surrounding aesthetics, also deterring wildlife from consuming harmful plastics.

Garbage Collection Service - After

A landfill and designated area was created to collect and dispose of all the trash which was previously open to the elements

Result: Garbage collection occurs multiple times a week sponsored by Cabral. Trash bins are now provided throughout the community, resulting in reduction of disease and toxins from burning garbage improving the overall environment.

Water Bore –Potable Water Supply

The new semi-artesian well is capable of producing 200l/hour of drinking water. A new water tower is underway to further enhance the quality of water supply in the community. An independent Solar Power source and water distribution are planned for 2022.

Supporting Local Cultural Events

Cabral supports local cultural events in the community of Cuiú Cuiú whenever possible to ensure traditions are kept alive

Police Station

Cabral Gold provides facilities and logistical support for the local police, while awaiting the new police station to be built.

With the delivery of the Nursing Station/Clinic, complete, the construction of the new permanent Police Station will be prioritized. The land was donated by the community and Cabral Gold will begin construction in the summer of 2022.

Thank You Message - Community VP of Cuiú Cuiú

To Mr. Alan Carter, Cabral Gold, CEO

We have had a great experience with you and sincerely thank you for the services rendered to our village Cuiú Cuiú.

Such as, reforming the Tancredo Neves School, Trash Cleaning, Teachers' Sands Passage, School lunch, and sponsorship of the June festivities and community bingo cards.

As a community we are very grateful for the collaboration and our children who will now have a better place to study, thanks to all of the Cabral Gold staff.

*Gessica Nayara
Vice President, Community Relations*
